SEAS

AWARD
WINNING
SYSTEM*

Silicone Edge Automated Stitching

*2018 SGIA Product of the Year

SEAS is a revolutionary system for SEG Keder sewing. Our sewing solutions, with three different levels of automation, were developed to increase the productivity of operation and meet clients' different expectations.

Following the market closely and realizing the exponential growth of the use of Tension Fabrics with SEG Keder, we've developed three

revolutionary solutions to increase productivity and quality in this area:

The SEAS system (Silicone Edge Automated Stitching).

The SEAS solutions are the result of a strong investment in Research & Development, backed by real-world feedback from our customers.

MX Event
+SEAS

Automatic SEG Keder sewing system that doesn't need a sewing specialist

Do more with the workforce you already have

PATENT
GRANTED

MX Event with SEAS is a fully automatic sewing machine to sew SEG Keder to fabric panels. This sewing system improves the efficiency of the production flow, increases quality service and simplifies your sewing and SEG finishing.

This advanced technological solution automatically joins large format panels with great quality and perfect alignment to form extra-large panels.

The MX Event with SEAS becomes an even more powerful SEG sewing machine with the integration of the Extension Table. This innovative solution provides a 5-meter long working area to handle and align heavy and oversized display textiles.

The Extension Table, seen at the picture, is an optional equipment.

**SM Versatile
+SEAS**

A semi-automatic sewing machine capable of performing 4 different sewing operations

Increase your productivity and lower costs with a versatile sewing machine

NEW

SM Versatile with SEAS is the right machine for companies that need to diversify their sewing solutions to create more production flexibility.

With SM Versatile, you don't need to invest in different sewing machines to respond to different finishing requests, as it is an equipment prepared to sew at least 4 important finishing operations in a single machine:

1. Sew SEG Keder
2. Sew reinforcement tapes
3. Velcro application
4. Sew open hems

**SM Optima
+SEAS**

A semi-automatic SEG Keder sewing system

Increase your productivity
and quality in an easy and efficient way

The SM Optima is a SEG Keder semi-automatic sewing system that is composed by a high-end lockstitch sewing machine, an optimized sewing table and a SEAS Universal Kit.

The system was developed to be as easy to use as possible, with ideal dimensions for large textile handling and to be easily moved across factory floor when necessary.

With low maintenance and high reliability, this is a turnkey solution to start or increase your presence in the fast growing Silicone Edge Graphics industry.

A SEAS kit to install on your sewing system

Get more from a standard machine

The SEAS Universal Kit is a set of accessories that transform a normal sewing machine into a high quality and productive machine to sew any type of SEG Keder.

Composed by 3 parts:

A. Reel Holder

B. Feeder

C. Guide

The focus on the development of this solution was to allow companies that already own a sewing machine to start or significantly increase the SEG finishing.

With a quick and easy installation, which can be done by any employee of the company, with intuitive use without the need for training, simple maintenance and reduced delivery

times, this is the right solution for anyone who wants to be present in one of the areas of highest growth in the Soft Signage world.

SEG
Keder BTS

SEG Keder BTS PVC FREE

A sustainable finishing for Fabric Display

SEG Keder BTS (Better than Silicone) is formulated to be environmentally friendly and perfect for tensioned printed fabrics.

Being a Phthalate-Free, 100% non-PVC product, recyclable, free of estrogen mimics solution, it allows now working on textile finishing in a sustainable way.

SEG Keder BTS is compatible with virtually all SEG frame systems, enabling uniformly tensioned fabric panels as an ideal solution for decoration and communication.

SEAS Label
Dispenser

SEG Labels

Boost your production speed with SEAS Label Dispenser and easy-to-apply adhesive Labels

The label dispenser makes adhesive labels available quickly and automatically and our easy-to-apply adhesive labels help reduce application time on fabric prints.

The label dispenser is ready for use just by turning the ON-button. Having a sensor that pushes the label to the right position, labels are always in the right place, at the worker disposal.

With the help of Meevo's SEG Labels, anyone can easily remove the tensioned fabrics from the frames.

SEG Threads

Designed to run superbly at high sewing speeds

MEEVO SEG Threads are fine, smooth, resistant threads designed to run superbly at high sewing speeds.

Available threads:

- 36 Thread Needle 16/2
- 50 Thread Needle 20/2
- 120 Thread Looper 42/2

Book your demo now!

Learn more about our machines in person or online. Our team is at your disposal to show our SEG finishing technologies in real time.

Why book a demo?

- We can run the demo with the textiles you want.
- Schedule the demo when works best for you.
- There's no commitment!
