Durst®

RHO™ Series Printers

MGA High Performance UV curable inks for the Durst® RHO™

- ▼ Greater pigment loading compared to the OEM inks
- ▼ Greater color gamut compared to the OEM inks
- ▼ Greater adhesion (specifically to plastics) compared to the OEM inks
- ▼ Lower cost compared to the OEM inks
- ▼ Backed by INX Digital's Worldwide Outdoor Durability and Ink Train Warranty for TRIANGLE® brand inks.

3,25 X 2 liter Bottles
Net quantity 6,50 liters

Ink Train Warranty

INX Digital offers the most comprehensive warranty in the industry. If inks are proven to be the cause of the printer breakdown during the initial OEM warranty period, then INX Digital will provide parts, service or reimbursement costs required to repair damage to the ink train.*

*See warranty disclosure statement for details.

Outdoor Durability Warranty

INX Digital backs their products with their Worldwide Ink Durability Warranty. INX Digital's TRIANGLE® Inks have been extensively used for many years and exposed to virtually all global and outdoor climates.*

*See specific product durability warranty as some vary.

+ Ask a sales representative for INX Digital's complete Worldwide Ink Durability Warranty.

FLATBED UV CURABLE PROTECION

Cristal Bond

Available in: Gloss (D007)

- ▼ Formulated for adhering to and protecting UV curable inks
- ▼ Virtually eliminates directional banding (lawnmower effect)
- ▼ Minimizes the effect of UV light transmission
- ▼ Minimizes the effects of oxidation, moisture, and temperature
- ▼ High abrasion resistance

Time to clean?

INX Digital is employing a new, patent-pending technology, proving that up to 100% recovery on UV print heads with obstructed nozzles and restricted flow is possible. This advance in print head cleaning, available for virtually all print head types, translates to major savings for digital print operations.

Spare Parts

INX Digital offers common replacement parts (at a significant savings over the OEM) for many of the printers that it manufactures ink for. These parts are the same parts that are sourced by the manufacturers themselves, refurbished, or are re-sourced to solve known problems.
