

# One-Stop Online Print Production Management

Experience the Future of Print Shop Automation with ONYX Align  
Featuring Full Integration with QuickBooks Online

## What's Onyx Align

Accessed from a browser, ONYX Align provides end-to-end order management, customizable production management, and predictive estimation tools for fast, reliable quoting and reporting for any size print business.

## Why Align?

### Create Fast, Reliable Estimates

Automate and track jobs from quotation to shipping with ONYX Align. Our system utilizes data inputs linked to your business to generate instant quotes. This streamlined process empowers anyone to create accurate and reliable quotations within minutes.

### Convert Insights into Profitability

ONYX Align allows users to gain valuable insights into business performance. Compare estimated costs with actual revenue to track, analyze, and show profitability on every order, product, and job.

### Connect with Our Digital Ecosystem

ONYX Align users can connect to ONYX Thrive to import printers and their settings, reduce setup time, and submit jobs directly to the RIP-queue for a seamless workflow.

## Streamlined Integration

### QuickBooks Online Integration

- **Direct Connectivity:** Establish a seamless link between your ONYX Align and QuickBooks Online accounts for streamlined operations.
- **Live Synchronization:** Enjoy real-time updates of customer accounts, jobs, tax rates, payment terms and methods.
- **Estimate and Invoice Automation:** Experience automatic creation and real-time status updates of Estimates and Invoices within QuickBooks Online, all issued directly from ONYX Align.
- **Automated Payment:** Maintain up-to-date records with live synchronization of all payment activities and invoices, enhancing financial tracking and reporting.
